

WE SIMPLIFY THE WAY YOU PURCHASE.

We Specify.

OGMIS Group is staffed by a broad range of engineers with expertise in the electrical, mechanical and industrial fields. In addition to our extensive experience, our personnel speak multiple languages, including English, Arabic, and French.

We Procure.

OGMIS Group has established relationships with thousands of manufacturers across the world. With a vast global network of suppliers and manufacturers, OGMIS Group serves as a single source of supply for all your projects' needs. Our sales engineers will evaluate hundreds of sources to find the right manufacturer, the right delivery and the right price.

We Finance.

To best meet your company's needs, OGMIS Group offers the following services: letters of credit, sight drafts, time drafts, and wire transfers. Also, for customers with established credit, we extend our services with open payment terms.

We Inspect.

OGMIS Group makes sure that the products you order are the products you get. We go to great lengths to deliver your products in the condition and quality you expect. Every product we handle goes through our extensive inspection process to ensure quality & conformity to industry standards. Beyond individual product inspections, OGMIS Group also conducts inspections of production and plant facilities to vet manufactures for our clients. We offer witness testing and onsite at dock inspections.

We Expedite.

Delays in manufacturing and shipping cause downtime and raise your costs. With personnel devoted to expediting your order, you can be sure OGMIS Group will arrange for the fastest possible production and delivery of your products.

We Deliver.

OGMIS Group's experience with international logistics guarantees that your orders will be delivered to the right location, on time, with the right documentation and full test and material certificates. Our shipping department moves your cargo by air or ocean. All phases of export documentation and regulations are followed to allow for easy and quick delivery of your cargo.

Wiring Devices

Valves

Actuators
Ball Valves
Butterfly Valves
Check Valves
Gate Valves
Globe Valves
Knife Gate Valves
Manifold Valves
Needle Valves
Pressure Regulator Valves
Relief Valves

Instrumentation

Barriers
Cables
Calibration Instruments
Diaphragm Seals
Disconnect Switches
Enclosures
Flame Detectors
Flow Controllers
Flow Transmitters
Force Sensors
Gauges
High Pressure Fittings & Valves
Indicators
I/O Modules
I/P Converters

Leak Detectors
Level Gauges
Level Switches
Machine Control Systems
Manifolds
Moisture Meters
NEMA Enclosures
Operator Interface Equip.
Orifice Plates
Pneumatic Instruments
Recorders
Regulators
Rotometers
Rotary Switches
Seal Pots
Sunshades
Switches
Temperature Sensors
Terminal Blocks
Thermocouples
Thermowells
Transmitters
Tube Fittings
Vents - Rupture Disks

Piping
